

Throughput Diagnostics Report

Enterprise ML Analysis Output

Source CSV: throughput_20260423_180414.csv

Generated: 2026-05-14 12:37:33

Metric	Value
Total Rows Analyzed	581
Total Anomalies	17
Critical Rows	17
Maximum Latency	1780.00 us
Average Latency	507.19 us
Health/Performance Score	97.07/100

Executive Summary

The ML pipeline analyzed **581** rows and detected **17** critical anomalies using row-wise and column-wise deviation checks.

Row-wise and Column-wise Findings

Category	Count
Row-wise anomaly findings	0
Column-wise anomaly findings	17

Critical Frame Ranking

Rank	Frame	Peak Latency (us)
1	Frame_309	1780.00
2	Frame_155	1080.00
3	Frame_475	1060.00
4	Frame_35	1060.00
5	Frame_235	1060.00
6	Frame_195	1060.00
7	Frame_135	1060.00
8	Frame_455	1060.00
9	Frame_395	1060.00
10	Frame_75	1060.00

ML-generated Explanations

T=13 [Critical] Frame_309 spiked to 1660us (avg 753us, +120%)
T=56 [Critical] Frame_309 spiked to 1660us (avg 753us, +120%)
T=96 [Critical] Frame_309 spiked to 1700us (avg 753us, +126%)
T=99 [Critical] Frame_309 spiked to 1680us (avg 753us, +123%)
T=142 [Critical] Frame_309 spiked to 1680us (avg 753us, +123%)
T=185 [Critical] Frame_309 spiked to 1680us (avg 753us, +123%)
T=213 [Critical] Frame_309 spiked to 1780us (avg 753us, +136%)
T=225 [Critical] Frame_309 spiked to 1760us (avg 753us, +134%)
T=271 [Critical] Frame_309 spiked to 1680us (avg 753us, +123%)
T=274 [Critical] Frame_309 spiked to 1660us (avg 753us, +120%)
T=280 [Critical] Frame_309 spiked to 1660us (avg 753us, +120%)
T=317 [Critical] Frame_309 spiked to 1660us (avg 753us, +120%)

Recommendations

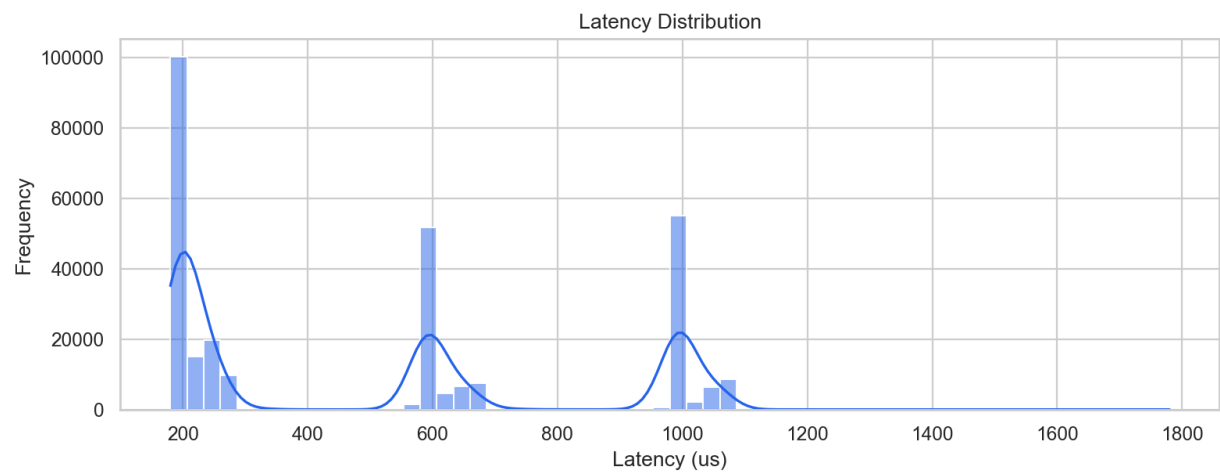

- Investigate critical frames that exceeded 2000us threshold or deviated significantly from baseline.

Final Conclusion

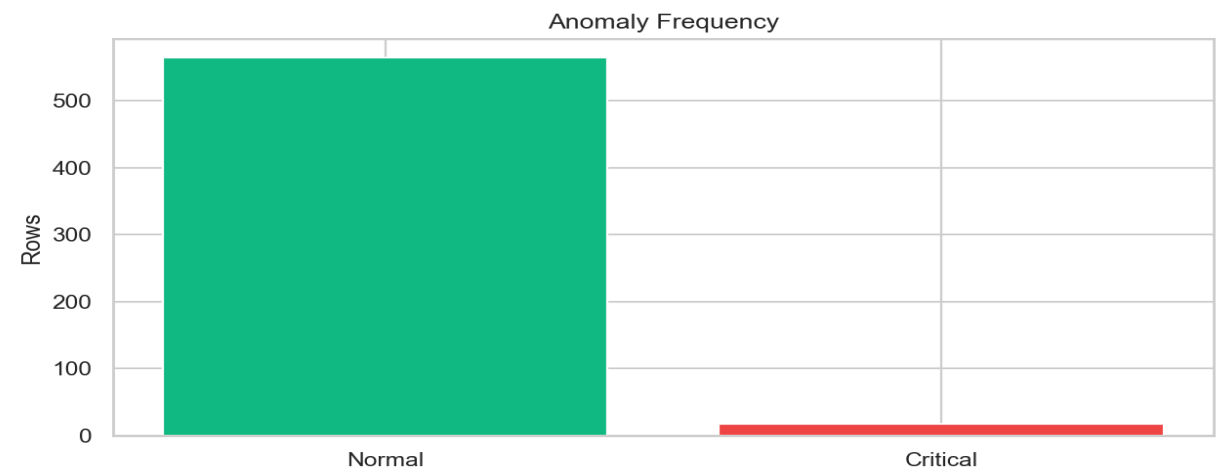

Conclusion: The diagnostics pipeline executed successfully and produced actionable insights with anomaly classification, frame criticality ranking, and performance health scoring.
